Internship Announcement
Milwaukee Economic Development Corporation (MEDC)

MEDC is a small business lender that works closely with the City of Milwaukee Department of City Development (DCD) to promote economic growth in the City. MEDC is seeking an undergraduate or graduate student to assist in the assessment and review of potentially contaminated properties or Brownfield sites located within the City of Milwaukee. The intern will be trained to: research historical data and prepare reports for commercial and industrial real estate transactions, prepare Environmental Assessments to comply with federal regulations pertaining to the National Environmental Protection Act, and assist with grant writing and preparation. The intern will work closely with DCD’s environmental and real estate staff, various City departments, and gain exposure to a variety of environmental consultants. The intern will participate in site visits, interviews, and some data analysis as needed. This opportunity is of particular interest for a student interested in the environmental field and looking to gain valuable experience in an office setting. Candidates must be willing to work at least 15-20 hours per week and have a valid U.S. driver’s license. This is a paid internship position.

For more information about MEDC and DCD: www.medconline.com or city.milwaukee.gov/DCD.

Send resumes to Karen Dettmer, Senior Environmental Project Engineer, at karen.dettmer@milwaukee.gov. by close of business July 23, 2012 for consideration.
